PULLING OVER- LASTING MACHINES

Pulling over-lasting machine exclusively addressed to the traditional Ideal working, for men, ladies and children shoes, with electro-pneumatic functioning with hydraulic last blocking.

**ATOM**

### PINCERS

Equipped with 6 independent pincers, individually adjustable, with combined vertical and lateral pulling to provide an adequate tension to the upper in working.

### IDEAL WORKING

Automatic right and left, in which the last at asymmetrical development, typical of the ideal working, is enveloped by the lasting wipers couple, compensating the structural difference of the last.

### ERGONOMIC SETTINGS

Control and software management system, with the support of a color LCD with touchscreen, for a simple and intuitive use.

### REMOTE ASSISTANCE

Possibility of remote assistance by PC, for a quick and immediate technical support.
